SUMMARY

UX/UI Designer with experience in user-centered design, interaction design, accessibility research, and cross-functional collaboration. Skilled at identifying user needs, reviewing digital experiences, mapping user journeys, and translating insights into clear, usable flows and interfaces. Currently pursuing an M.S. in Human Factors and Ergonomics with a concentration in User Experience at San José State University. Interested in designing inclusive, intuitive, and impactful digital products.

EXPERIENCE

Alterea, Inc. - AOI Game Department — Remote

UX/UI Designer Intern — Jun 2026 - Present

- Review and refine the company's public-facing website to improve clarity, usability, and overall user experience.
- Evaluate and improve registration flows and related screens by identifying potential friction points and usability issues.
- Contribute to the refinement of digital touchpoints that support user onboarding and engagement.
- Collaborate across teams to communicate design feedback, clarify user needs, and support experience improvements.

San José State University — San Jose, CA

Graduate Researcher - AI and Accessibility — Mar 2026 - Present

- Explore AI technologies designed to support people with visual impairments (PVI).
- Investigate user needs, accessibility challenges, and opportunities for more inclusive AI-enabled experiences.
- Apply human factors and user-centered research principles to evaluate how emerging technologies can improve usability and independence.

Xiamen In-one Culture Co., Ltd. — Xiamen, China

Event Planning Coordinator — Oct 2018 - Sep 2019

- Planned and coordinated more than 30 events, including large-scale events with over 3,000 attendees.
- Managed multiple projects simultaneously while coordinating timelines, resources, vendors, and client requirements.
- Strengthened cross-functional communication and problem-solving skills in fast-paced, high-stakes environments.

Beijing Meisiweishi Conference and Exhibition Services Co., Ltd. — Beijing, China

Exhibition Management Intern — Mar 2017 - Jun 2017

- Conducted client consultations to understand project goals, audience needs, budget, and project scale.
- Supported scheduling, vendor coordination, preparation, and project organization.
